### COVID 19 – Updated Guidance

Dear Parents and Carers,

You may be aware that any remaining restrictions surrounding COVID-19 were withdrawn on Friday 1<sup>st</sup> April. The government has created a list of ways to keep safe:

1. Get vaccinated.
2. Let fresh air in if meeting others indoors.
3. Practise good hygiene:
  - a. wash your hands
  - b. cover your coughs and sneezes
  - c. clean your surroundings frequently
4. Wear a face covering or a face mask.

There is also [guidance](#) on when your child should and should not attend school:

- Children and young people with mild symptoms such as a runny nose, sore throat, or slight cough, who are otherwise well, can continue to attend their education setting.
- Children and young people who are unwell and have a **high temperature** should stay at home and avoid contact with other people, where they can. They can go back to school, college or childcare, and resume normal activities when they no longer have a high temperature and they are well enough to attend.

It is also recommended that if your child does have a [positive COVID-19 test result](#), they should remain at home for three days and only return to school when they feel well and do not have a high temperature.

***If a child or young person has a positive COVID-19 test result they should try to stay at home and avoid contact with other people for 3 days after the day they took the test, if they can. After 3 days, if they feel well and do not have a high temperature, the risk of passing the infection on to others is much lower.***

We will continue to be vigilant at school, and ensure that the safety of our community is our priority.

Many thanks,

Mrs Carlyle
